I just wanted to let the FCC know I benefit from listening to XM Satellite Radio and its traffic and weather channels. I feel satellite radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what you are permitted to hear. I pay for my cable TV and the FCC does not regulate this. I feel there is no difference in the two. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that you demand and deserve.
